Performance data quoted represents past performance which does not guarantee future results. The investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Net performance reflects a maximum front-end sales charge or 3.75% for class A shares. A 1% contingent deferred sales charge for class C shares is charged on redemptions made within 12 months of purchase, but not at one year. The fund's investment adviser, Carillon Tower Advisers, Inc. has contractually agreed to waive or reimburse certain fees and expenses through April 30, 2025, and may recover/recoup previously waived expenses that it assumes within the following two fiscal years. Performance data quoted reflects reinvested dividends and capital gains. Returns less than one year are not annualized. Current performance may be higher or lower than the performance data quoted. Performance data current to the most recent month-end may be obtained by calling 1.800.421.4184 or visiting carillonfunds.com.

Performance "at NAV" assumes that no front-end sales charge applied or the investment was not redeemed. Performance "at offer" assumes that a front-end sales charge applied to the extent applicable.

Class I and R shares have no sales charge and are only available to certain investors. See the prospectus for more information.

*The Carillon Family of Funds will convert class C share accounts that are more than 8 years old to class A shares on the third of each month. Shareholders may continue to purchase shares in either class, but will be required to pay a sales charge on new purchases of Class A shares.

Credit Quality: Credit quality ratings are sourced from Standard & Poor's (the "S&P"), and Moody's. Ratings values shown are reflective of both agencies. If none of the rating agencies has assigned a rating, the Fund will assign a rating of NR (non-rated security). The ratings represent their (S&P, Moody's) opinions as to the quality of the securities they rate. The ratings range from AAA (S&P) or Aaa (Moody's) (extremely strong capacity to meet its financial commitment) to D (S&P) or C (Moody's) (in default). Credit ratings of BBB are good credit quality and the lowest category of investment grade. Ratings are relative and subjective and are not absolute standards of quality. The ratings provided relate to the underlying securities within the fund and not the fund itself.

¹Based on the I-shares the 30-Day SEC Yield is computed under an SEC standardized formula based on net income earned over the past 30 days. It is a "subsidized" yield which means it includes contractual expense reimbursements and it would be lower without those reimbursements.

²Based on the I-shares the Unsubsidized 30-Day SEC Yield is computed under an SEC standardized formula based on net income earned over the past 30 days. It excludes contractual expense reimbursements resulting in a lower yield.

Please consider the investment objectives, risks, charges, and expenses of any fund carefully before investing. Call 800.421.4184 or your financial professional for a prospectus, which contains this and other important information about the funds. Read the prospectus carefully before you invest or send money.

Prior to June 30, 2022 the wholesaling and marketing efforts were provided by, among others, Chartwell TSC Securities Corp., an affiliate broker dealer, member FINRA. Chartwell Investment Partners, LLC and Chartwell TSC Securities Corp. were both wholly owned subsidiaries of TriState Capital Holdings, Inc. Beginning July 1, 2022: the fund was re-named the Carillon Chartwell Short Duration Bond Fund; the underwriting, wholesaling and marketing efforts became provided by Carillon Fund Distributors, Inc., member FINRA; Chartwell Investment Partners, LLC became the sub-adviser for the fund as well as a subsidiary of Carillon Tower Advisers, Inc., which became the investment adviser. All entities named are affiliates.

Risk Considerations: Fixed income investment includes the following risks: credit, prepayment, call and interest rate risk. Credit risk refers to the loss in the value of a security based on a default in the payment of principle and/or interest of the security, or the perception of the market of such default. As interest rates rise the value of bond prices will decline. High-yield bonds have a higher risk of default or other adverse credit events, but have the potential to pay higher earnings over investment grade bonds. The higher risk of default, or the inability of the creditor to repay its debt, is the primary reason for the higher interest rates on high -yield bonds. The Fund may invest in foreign and emerging market securities which involves certain risks such as currency volatility, political and social instability and reduced market liquidity. The Fund may also invest in ETFs (Exchange-Traded Funds) and therefore would be subject to the same risks as the underlying securities in which the ETF invests as well as entails higher expenses than if invested into the underlying ETF directly. The fund is new and has limited performance history for investors to review.

The fund is the successor to the Chartwell Short Duration Bond Fund pursuant to a reorganization involving the fund and the Predecessor Fund that occurred on July 1, 2022. The Class Chartwell shares of the Fund have adopted the performance history and financial statements of the Predecessor Fund. Prior to the date of the reorganization, the fund had no investment operations. Accordingly, the information, including information on fees and expenses and financial information provided in this prospectus for periods prior to the reorganization (the Fund's commencement of operations) is historical information for the Predecessor Fund. Given the above, unless specifically stated otherwise, subsequent references in this section to the Fund should be read to include the Predecessor Fund.
